Masters of War: History's Greatest Strategic Thinkers (Great Courses) (Teaching Company) (Course Number 9422 Audio CD) (Teaching Company) Prof. Andrew Wilson

What can Thucydides teach us about the war in Iraq in 2003? What is the key to adaptation during an ongoing conflict? How do you balance the tension between political and military objectives? Why are insurgency and terrorism such powerful military tactics, and how do you combat them? As these questions show, military strategy matters. Civilizations with the greatest strategists-often coupled with the greatest resources-have had a powerful edge over competing civilizations. From Napoleon's revolutionary campaigns to the way insurgency, terrorism, and nuclear weaponry have defined the nature of warfare in the 21st century, the results of military strategy have changed the course of history. Masters of War: History's Greatest Strategic Thinkers gives you an inside look at both the content and historical context of the world's greatest war strategists. Taught by Professor Andrew R. Wilson-and modeled on his elite course at the United States Naval War College-these 24 lectures will change the way you read newspaper headlines by instilling in you a new appreciation for the subtleties and complexities of strategy-and how nations and military leaders have adapted to the dynamic realm of fog, friction, and chance. See how George Washington adapted his strategy after losing New York during the American Revolution. Learn why FDR went against the advice of Chief of Staff George Marshall and embarked on a campaign in north Africa in the summer of 1942. Trace the United States' Pacific strategy, from War Plan Dog to Guadalcanal to the island-hopping campaign. Apply Clausewitz's "culminating point of victory" to the Persian Gulf War. Consider the strategy behind recent U. N. airstrikes in Libya. The great masters of war have been writing about strategy for thousands of years, and understanding their works can help a nation achieve military and political success.
