A Language in Space: The Story of Israeli Sign Language

Irit Meir, Wendy Sandler

A Language in Space: The Story of Israeli Sign Language Irit Meir, Wendy Sandler

This English version of *A Language in Space: The Story of Israeli Sign Language*, which received the Bahat Award for most outstanding book for a general audience in its Hebrew edition, is an introduction to sign language using Israeli Sign Language (ISL) as a model. Authors Irit Meir and Wendy Sandler offer a glimpse into a number of fascinating descriptions of the ISL community to which linguists and other researchers may not have access. An underlying premise of the book is that language is a mental system with universal properties, and that language lives through people.

A clear and engaging read, *A Language in Space* addresses relevant aspects of sign language, including the most abstract questions and matters related to society and community. Divided into three parts, the book covers:

- the linguistic structure of Israeli Sign Language;
- the language and its community; and
- a broad depiction of ISL and the contribution of sign language research to linguistic theory.

This book is intended for linguists (with or without a background in sign language), psychologists, sociologists, educators, students, and anyone with an interest in the human capacity for language.
