"The significant problems we face cannot be solved at the same level of thinking we were at when we created them." -- Albert Einstein— F(X) Leadership Unleashed! is a different kind of leadership development book. It is a comprehensive leadership development approach hitting all the areas and aspects of creating great leaders starting with yourself first. It combines the Art and the Science of leadership. It encompasses tried and proven leadership concepts in a way that is easily charted throughout all levels of an organization because it provides a roadmap and the compass. F(X) Leadership Unleashed! will benefit anyone who seeks to inspire, impact, ignite or lead others, whether they are military, civilian, corporate or community leaders. Leadership begins inside of you. Leadership is about you, the people you influence, and a belief that you can make a difference and have an impact. Leadership starts with a condition of the heart – the desire and passion to make a difference before it moves to the brain to implement a plan to make a difference. It is an inside-out process and is shaped by your values, character, choices, opportunities, experiences and your worldview. The author, Thomas Narofsky, advances critical thoughts of essential fundamentals of leadership using a disciplined approach called the F(X) Leadership Model: The essence of the model is about the effects and outcomes you want to produce in your life. It is about you taking ownership of your growth and development and the actions in your life. Readers will find inspiring stories, chapter summaries, key takeaways, leadership applications, and thought questions with reflective exercises to ensure the material and concepts are reinforced. It is an extremely well-written, comprehensive, well documented, and thorough approach on unleashing a person's leadership abilities!
