The Morning of the Magicians (Mysteries of the Universe S.) Louis Pauwels, Jacques Bergier

A classic of radical literature, this revolutionary study has challenged conventional knowledge and assumptions for decades, offering unique perspectives on everything from alchemy, politics, history, and supernatural phenomena to magic, Nazi occultism, and mankind's place in the universe. Drawing from the work of Charles Fort and Carl Jung, among others, the authors explore the importance of history and its varied perceptions and propose new ways of interpreting reality. Through these visionary ideals, they assert that mankind can ultimately achieve cosmic interconnectedness.
