The striking landscapes of Bryce Canyon, Zion, the Escalante Staircase and other places in southern Utah add intense feeling to the photos in this book, in which desert sandstones from California also play a conspicuous role. A concern for the beauty of natural rock, weathered wood, and diverse leaf surfaces is combined with innovation in viewing the surfaces of the male body. As with all of the other books, only intact males are photographed, thus emphasizing the natural history approach. "The photography is technically skillful. If you can't get enough of classy pictures of muscular or at least comely men, this book might be just the ticket." -Frontiers Magazine
