**The peace between the militarized Earthlings and the cybernetic Martians is collapsing.**

When an unknown alien life form crash-lands on Mars, the tenuous cease-fire between the militarized earthlings and cybernetic Martians is pushed to the brink. To prevent a second intergalactic war between the humanoid factions, Bellrock, a semi-retired veteran of the first war, is paired with a leading scientist of the newly enlightened human race. Their mission is to gauge the alien's threat level without escalating tension between the already embittered factions.

When the inevitable conflict explodes, Bellrock discovers the real danger has been lurking beneath the Martian surface...
