Building Your eBay Traffic the Smart Way: Use Froogle, Datafeeds, Cross-Selling, Advanced Listing Strategies, and More to Boost Your Sales on the Web's #1 Auction Site Joseph T. Sinclair

"What if you could double your eBay sales with one mouse click? Sound impossible? Welcome to the next big development in the world of online auctions: datafeeds. Using a datafeed to export your eBay auction listings, your items will now surface in shopping-focused searches performed by engines like Yahoo! Shopping, Amazon, and Google's new Froogle service. Instead of a general search, which finds thousands of Web pages that merely mention an item, sites like Froogle and Yahoo! Shopping return a list of online retailers who actually sell the product. Would you like to be on those lists? "Building Your eBay Traffic the Smart Way" gives you dozens of new strategies for reaching people whose only goal is to buy. With auction management software or a service, your eBay business information is kept in a database that can feed information to other e-commerce systems - like Froogle, Yahoo! Shopping, Amazon, and other product search engines. Which means that your product is now available not only to eBay buyers but also to a whole new universe of online shoppers! "Building Your eBay Traffic the Smart Way" also unlocks the incredible power of cross-selling (linking from one auction to another), targeted advertising, pro-quality photography, eBay stores, online malls, and much more!"
