## **The Shape Of Things To Come** H.G. Wells

When a diplomat dies in the 1930s, he leaves behind a book of 'dream visions' he has been experiencing, detailing events that will occur on Earth for the next two hundred years.

This fictional 'account of the future' (similar to *LAST AND FIRST MEN* by Olaf Stapledon) proved prescient in many ways, as Wells predicts events such as the Second World War, the rise of chemical warfare and climate change.
