**Demonstrates the practical realities of media law in a succinct reference guide**

Written by a media lawyer who works in-house for a national news organization and also teaches media law, *A Practical Guide to Media Law* is intended to help non-lawyers understand the legal issues involved in modern communications and journalism. It is particularly useful for future journalists, who need to be trained in the legal issues that will affect their work; but it is also an excellent guide for anyone who communicates in any capacity: tweeting, Facebooking, commenting, blogging, posting photos, managing public relations, running a website, etc. It's a training manual for the real world of communication.

MySearchLab is a part of the Messenger program. Research and writing tools, including access to academic journals, help students understand critical thinking in even greater depth. To provide students with flexibility, students can download the eText to a tablet using the free Pearson eText app.
