As a student, I exactly feel bored to reading. If their teacher questioned them to go to the library in order to make a summary for some guide, they are complained. Just little students that have reading's internal or real interest. They just do what the teacher wants, like asked to the library. They go to right now there but nothing reading critically. Any students feel that studying is not important, boring along with can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important for yourself. Therefore, this The Scoutmaster's Other Handbook can make you sense more interested to read.
