What The Bible Really Says: In Genesis Edward Buck

This is a story filled with sex and violence, murder and mayhem, covert operations and vengeance, and it only covers the Book of Genesis! Aside from the inherent drama, this work is an incisive, informative, fascinating narrative and translation from the original Hebrew texts of the Book of Genesis into modern understandable English. It is a description of Scripture that debunks many traditions that have crept into current accepted teachings. Idioms and expressions used at that time are explained in terms we can understand today, giving that book of the beginning a new perspective and a new life of enlightened explanation. Appendices in the back of the book present a variety of topics of faith and interest to the subject matter.
