The Heavens [Laminated] (National Geographic Reference Map) National Geographic Maps - Reference

The stars of earth's night sky seem to hang like tranquil lanterns, filling us with wonder. They inspire great works of art, and tempt our imaginations into creating stories and myths from the shapes we see. The Heavens shows star charts and constellations for both the Northern and Southern Hemispheres. All 2,844 of the stars on the chart, plus nebulae and star clusters, can be seen with the unaided eye, making this chart a perfect companion for viewing the night sky.

Map is printed on premium quality paper stock, laminated, rolled, and packaged in a clear plastic sleeve.

- Sheet Size = 30.5" x 22.75"
