Antigone, Interrupted

Professor Bonnie Honig

Antigone, Interrupted Professor Bonnie Honig

Sophocles' *Antigone* is a touchstone in democratic, feminist and legal theory, and possibly the most commented upon play in the history of philosophy and political theory. Bonnie Honig's rereading of it therefore involves intervening in a host of literatures and unsettling many of their governing assumptions. Exploring the power of *Antigone* in a variety of political, cultural, and theoretical settings, Honig identifies the 'Antigone-effect' - which moves those who enlist *Antigone* for their politics from activism into lamentation. She argues that *Antigone*'s own lamentations can be seen not just as signs of dissidence but rather as markers of a rival world view with its own sovereignty and vitality. Honig argues that the play does not offer simply a model for resistance politics or 'equal dignity in death', but a more positive politics of counter-sovereignty and solidarity which emphasizes equality in life.
