Time Will Tell Michele Doucette

A story that encompasses both historical and metaphysical fact, weaved into a fictitious tale, Michaela Callaghan, known affectionately as Dr. Mike, is a Metaphysician, Healthologist and Past-Life Regressionist. In the course of her personal studies, she comes to remember a past life as a Cathar healer and herbalist in Béziers, France. With pictures and memories so vivid, painting them comes both easily and naturally, as does heartache, in the remembrance of Jonathan (Jon) Maguire, her Sidhe companion, with the most amazingly deep emerald green eyes, framed by the darkest, curliest, lashes; so black that they look like they have been darkened with soot. Knowing that information retrieved from memories of the past can provide one with information pertinent to one's current incarnation, Michaela has no idea what this is supposed to mean, aside from her Alternative Healing practice. With information that is rich and well researched, the love story that emerges between Isabeau and Jon is one that encapsulates the transcendence of time.
