## ECOOP 2002 - Object-Oriented Programming: 16th European Conference Malaga, Spain, June 10-14, 2002 Proceedings (Lecture Notes in Computer Science)

Object-Oriented programming has for a number of years now been accepted as the industry standard in many areas. Coming from the area of simulation it showed its strengths in the design of graphical user interfaces and is now taken for granted in Internet applications. Object-oriented programming has positioned itself as the main programming paradigm in many universities and many students are introduced to programming through an Object-Oriented language. The importance of Object-Oriented programming and its fundamental ideas have now also been firmly recognized by the research community. This year both the IEEE John von Neumann Medal and the ACM Turing Award have been awarded to Ole-Johan Dahl and Kristen Nygaard for the pioneering work they did in the 1960s when designing the programming language Simula 67: 19 November 2001 - IEEE (Institute of Electrical and Electronic Engineers): Ole-Johan Dahl and Kristen Nygaard have been awarded the IEEE's 2002 John von Neumann Medal "For the introduction of the concepts underlying object-oriented programming through the design and implementation of SIMULA 67." New York, February 6, 2002 - The Association for Computing Machinery (ACM) has presented the 2001 A. M. Turing Award, considered the "Nobel Prize of Computing," to Ole-Johan Dahl and Kristen Nygaard of Norway for their role in the invention of object-oriented programming, the most widely used programming model today. Their work has led to a fundamental change in how software systems are designed and programmed, resulting in reusable, reliable, scalable applications that have streamlined the process of writing software code and facilitated software programming. 2002 will thus be remembered as an exceptional year in the history of Object-Oriented programming and it is an honor to have Kristen Nygaard as this year's banquet speaker. This year we had 96 submitted papers of which 24 were accepted for publication after a thorough review process. In addition to the reviewed papers there are invited talks given by Jos e Meseguer and Clemens Szyperski.

### **From reader reviews:**

#### **Kevin Burkes:**

The book untitled ECOOP 2002 - Object-Oriented Programming: 16th European Conference Malaga, Spain, June 10-14, 2002 Proceedings (Lecture Notes in Computer Science) contain a lot of information on that. The writer explains your girlfriend idea with easy way. The language is very simple to implement all the people, so do certainly not worry, you can easy to read that. The book was authored by famous author. The author gives you in the new era of literary works. It is possible to read this book because you can read on your smart phone, or device, so you can read the book inside anywhere and anytime. If you want to buy the e-book, you can wide open their official web-site along with order it. Have a nice examine.

#### **Gregory Proctor:**

Beside this kind of ECOOP 2002 - Object-Oriented Programming: 16th European Conference Malaga, Spain, June 10-14, 2002 Proceedings (Lecture Notes in Computer Science) in your phone, it could possibly give you a way to get nearer to the new knowledge or data. The information and the knowledge you can get here is fresh from oven so don't be worry if you feel like an previous people live in narrow small town. It is good thing to have ECOOP 2002 - Object-Oriented Programming: 16th European Conference Malaga, Spain, June 10-14, 2002 Proceedings (Lecture Notes in Computer Science) because this book offers to you personally readable information. Do you oftentimes have book but you would not get what it's all about. Oh come on, that will not happen if you have this in the hand. The Enjoyable blend here cannot be questionable, just like treasuring beautiful island. Use you still want to miss it? Find this book and read it from currently!

#### **Robin Millard:**

That e-book can make you to feel relax. This specific book ECOOP 2002 - Object-Oriented Programming: 16th European Conference Malaga, Spain, June 10-14, 2002 Proceedings (Lecture Notes in Computer Science) was multi-colored and of course has pictures on the website. As we know that book ECOOP 2002 - Object-Oriented Programming: 16th European Conference Malaga, Spain, June 10-14, 2002 Proceedings (Lecture Notes in Computer Science) has many kinds or category. Start from kids until teens. For example Naruto or Private eye Conan you can read and believe that you are the character on there. Therefore , not at all of book tend to be make you bored, any it offers up you feel happy, fun and unwind. Try to choose the best book for you personally and try to like reading in which.

#### **Douglas Brim:**

A lot of reserve has printed but it is different. You can get it by net on social media. You can choose the top book for you, science, comedy, novel, or whatever by means of searching from it. It is named of book ECOOP 2002 - Object-Oriented Programming: 16th European Conference Malaga, Spain, June 10-14, 2002 Proceedings (Lecture Notes in Computer Science). Contain your knowledge by it. Without leaving behind the printed book, it could possibly add your knowledge and make a person happier to read. It is most

important that, you must aware about reserve. It can bring you from one destination for a other place.
