Paul C. Brown

Architecting Composite Applications and Services with TIBCO (TIBCO Press) Paul C. Brown

“Paul Brown has done a favor for the TIBCO community and anyone wanting to get into this product set. Architecting TIBCO solutions without knowing the TIBCO architecture fundamentals and having insight to the topics discussed in this book is risky to any organization. I fully recommend this book to anyone involved in designing solutions using the TIBCO ActiveMatrix products.”

—Nikky Sooriakumar, TIBCO Architect, PruHealth

“An effective primer for building composite services using TIBCO, this book provides a holistic approach to strategy integrated with implementation details. I find it tremendously useful in moving recursively from business solutions to design patterns to architecture. Tangible examples are provided that build to composite services. And advanced topics are explored that add another valuable implementation dimension. I recommend this book to software architects who need to quickly build an effective business- services-oriented environment.”

—Abby H. Brown, Ph.D., Enterprise Architect, Intel Corp.

The architecture series from TIBCO® Press comprises a coordinated set of titles for software architects and developers, showing how to combine TIBCO components to design and build real-world solutions. TIBCO’s product suite comprises components with functionality ranging from messaging through services, service orchestration, business process management, master data management, and complex event processing.

In composite applications and services, multiple components collaborate to provide the required functionality. There are many possible architectures for these distributed solutions: Some will serve the enterprise well, while others will lead to dead-end projects. ***Architecting Composite Applications and Services with TIBCO®*** shows how to create successful architectures with TIBCO products for both overall solutions and individual services. This guide builds on the basic design patterns and product information presented in the first title in the series, *TIBCO® Architecture Fundamentals (Addison-Wesley, 2011)*.

After reading this title, you will be able to

- Create architectures for solutions, service specifications, and service implementations
- Understand the intended TIBCO product roles in composite applications and services
- Define manageable approaches to service versioning and naming
- Conduct and interpret performance benchmarks
- Identify and select appropriate design patterns for a variety of tasks

Architecting Composite Applications and Services with TIBCO® is intended primarily for project architects defining overall solutions and specifying the supporting components and services. TIBCO developers, enterprise architects, and technical managers will also find material of interest. No specific prior knowledge of architecture is assumed.

From reader reviews:

Douglas Gibson:

The book Architecting Composite Applications and Services with TIBCO (TIBCO Press) make you feel enjoy for your spare time. You can use to make your capable much more increase. Book can to be your best friend when you getting tension or having big problem with your subject. If you can make looking at a book Architecting Composite Applications and Services with TIBCO (TIBCO Press) for being your habit, you can get a lot more advantages, like add your current capable, increase your knowledge about several or all subjects. You are able to know everything if you like start and read a book Architecting Composite Applications and Services with TIBCO (TIBCO Press). Kinds of book are a lot of. It means that, science guide or encyclopedia or other folks. So , how do you think about this guide?

Nydia Kelly:

What do you about book? It is not important to you? Or just adding material when you require something to explain what the ones you have problem? How about your extra time? Or are you busy individual? If you don't have spare time to do others business, it is give you a sense of feeling bored faster. And you have free time? What did you do? Everyone has many questions above. They need to answer that question simply because just their can do in which. It said that about guide. Book is familiar on every person. Yes, it is suitable. Because start from on pre-school until university need that Architecting Composite Applications and Services with TIBCO (TIBCO Press) to read.

David Wolverton:

That publication can make you to feel relax. This particular book Architecting Composite Applications and Services with TIBCO (TIBCO Press) was vibrant and of course has pictures on there. As we know that book Architecting Composite Applications and Services with TIBCO (TIBCO Press) has many kinds or variety. Start from kids until youngsters. For example Naruto or Detective Conan you can read and think you are the character on there. Therefore not at all of book are generally make you bored, any it makes you feel happy, fun and unwind. Try to choose the best book for you personally and try to like reading this.

Jonathan Solis:

Reading a guide make you to get more knowledge from that. You can take knowledge and information from a book. Book is prepared or printed or descriptive from each source this filled update of news. In this modern era like right now, many ways to get information are available for a person. From media social such as newspaper, magazines, science guide, encyclopedia, reference book, book and comic. You can add your knowledge by that book. Are you hip to spend your spare time to open your book? Or just searching for the Architecting Composite Applications and Services with TIBCO (TIBCO Press) when you desired it?
